Summary

I am a Full Stack Developer passionate about building responsive, user-friendly web and mobile applications. Skilled in frontend and backend development, I specialize in creating scalable, high-performance solutions. I enjoy delivering clean, maintainable code and contributing to innovative projects that enhance user experiences.

Technical Skills

Languages & Frameworks:	HTML, CSS, JavaScript, React.js, Next.js, Typescript
Backend:	Node.js, Express.js, MongoDB, MySQL, Supabase, PostgreSQL
Tools & Libraries:	Tailwind CSS, Redux, React Query, Styled-Components, Framer Motion, Shadcn, Prisma, REST API
Platforms & Practices:	GitHub, Vercel, CI/CD, Figma, Pusher, Version Control

Work Experience

Intern – Full Stack Developer

NeoCloud Technology | July 2024 – October 2025

- Built and maintained multiple web applications, including GameNova Web Store, To-Do List / Bucket List App, Quiz App, Portfolio Website, Relationship Tracker App, and Real Estate Website.
- Developed responsive UIs with React.js/Next.js, improving usability and user engagement.
- Implemented backend APIs with Node.js and Express.js for dynamic data handling and database integration (MongoDB & MySQL).
- Optimized performance and collaborated with team members to deliver features on schedule.

Projects

Portfolio Website

Personal portfolio built with React.js, Tailwind CSS, and Framer Motion.

Live Link: <https://my-portfolio-website-taupe-mu.vercel.app/>

Real Estate Website

Property listing platform with search & filters, powered by Node.js & MongoDB.

Live Link: <https://tundo-esuola-co.vercel.app/find-a-service>

To-Do List / Bucket List App

Task management app with React.js and backend persistence.

Live Link: <https://todo-list-app-by-sweetesty.vercel.app/>

GameNova Web Store

E-commerce game store with shopping cart & checkout.

Live Link: <https://game-website-lemon.vercel.app/>

Opulent Threads – E-Commerce Website

Built a responsive clothing website using Typescript, Tailwind CSS, and Shadcn UI. Developed reusable components for product listings, navigation, and interactive cards. Ensured mobile-first design and smooth user experience.
